

GEMÜ Single-Use Components

If you are looking for single-use application products, GEMÜ is the right partner for you. We advise customers, design and produce our standard product range, as well as creating individual solutions on a case by case basis.

Product requirements

- USP/EP compliant purity
- ISO 10993 compatibility
- Use of FDA compliant plastics
- Radiation sterilization by X-ray or gamma irradiation

GEMÜ solutions

- Diaphragm valves
- Pinch valves
- Mixers
- Distribution plates
- Fittings
- Sensor blocks
- Sensor holders
- Multi-port valve blocks

Why GEMÜ?

At GEMÜ, we place great importance on high product quality. This is why we have established stringent quality assurance measures at our cleanroom manufacturing in Switzerland, meaning that we can comply with important requirements.

- Quality management systems
 - Manufacturing in compliance with GMP
 - Compliance with ISO 9001
 - Manufacturing site is registered with the FDA
 - TSE/BSE compliant production
 - Transport validation according to ISTA
- Cleanroom manufacturing and assembly in cleanroom class 8 according to EN ISO 14644-1
 - Contamination control
 - Access control
- Radiation sterilization (X-ray, gamma)

If you are interested in any type of single-use component, contact us at psu@gemu.de and we will find the right solution for you!
